## President's Message

Fellow Members,

April:

It starts with April fools day. A day filled with practical jokes and tricks. April is also the home of Earth Day and Arbor Day. Earth Day focuses on the value of preserving earth's natural resources for our future generations. Arbor Day is a day to encourage individuals and organizations to plant trees for their beauty and contribution to mankind.

The most significant days in April are Passover and Easter. As I understand it, the origin of Passover is when God, through Moses, attempted to convince the Pharaoh of Egypt to free the Jewish people from slavery. In the tenth and final effort God called for the angel of death to Passover all homes and take the lives of all first born. However, the families marking their doors with the blood of sacrificed lambs were spared the losses. Easter, also referred to as Resurrection Sunday commemorates the resurrection of Jesus from the dead. The foundation of Christian belief.

April is truly an amazing month.

Humbly submitted
